Customer Service Plus

Dear Friends,

Now that we're fully settled in our new headquarters, we're reminded of where we started and how far we've come. Twenty-two years ago Gall's began in an old building in downtown Lexington with only two employees. My office had a free-standing stove and a single ceiling light. But we were committed to our work, with the simple goal of providing the best service and the lowest prices on public safety equipment. Our hard work translated into increased sales and more merchandise, more employees and most of all, more friendly customers.

My office is a little nicer now... it's part of a 27,000 square foot headquarters complex that houses our show-room, offices and warehouse. And I have more people to help serve you, too... 67 in all. But the goal that we started with in 1966 is still the same. Striving every day to meet that goal is what has made us "AMERICA'S SOURCE FOR PUBLIC SAFETY EQUIPMENT." It's a responsibility we don't take lightly.

Thank you for letting us serve you.

Alan Bloomfield
President

ORDER ENTRY 1-800-524-4255 / CUSTOMER SERVICE 1-800-327-7249 / FACSIMILE 1-606-269-4360

17 Order Operators to Answer Your Questions

Our friendly order entry personnel are at your service 12 hours a day, and are happy to answer your questions. They're on the line Monday thru Friday 8:00 am to 8:00 pm Eastern, and Saturdays from 9:30 am to 6:00 pm.

Mail-In Orders Opened Fast

Mail orders are opened the first thing each morning, and are processed immediately in our computerized order entry department.

Personal Service at Our Showroom

Stop by and see our new showroom... we'd like to meet you. We're just two minutes from I-75 Exit 106 (turn right on to Palumbo Drive in Lexington, Kentucky).

Gall's Management Listens to You

Our planning and merchandising team works hard to bring you the best prices and the newest, most up-to-date merchandise. They're happy to hear your suggestions.

Your Lightbar is Custom-Outfitted

You get the options you want when you order your lightbar from Gall's. Four fully-trained technicians put it together exactly the way you want it... all at no extra cost.

Ask Our Operators for Federal Express Service If You Need Extra Fast Delivery

Need it fast? Use our low-cost Federal Express Service. If we receive your order by 12:00 noon Eastern, and the item you want is in stock, we'll ship it the same day via Federal Express Standard Air for delivery to you within two business days. (For items that are customized, please allow an extra three days). The cost? Just \$5.95 more than our regular shipping and handling charges (\$15.00 for Alaska and Hawaii). This special \$5.95 price applies to any delivery within the 48 states except APO/FPO addresses, P.O. boxes, or certain extra

heavy or bulky items. For super rush service, try Federal Express Overnight or Saturday delivery for a few dollars more. If part of your order is unavailable for immediate shipment, we will ship the in-stock items right away by Federal Express, and then send the back-ordered items to you by regular ground service at our expense.

Fast Delivery Anywhere in the U.S.A.

To determine the estimated time of delivery, find your location on the map above. The number of days for shipping is indicated on the map.

**Gall's, the ONLY Company That Offers
a Five Year Warranty, Assures You Long-Lasting
Service for Your Lightbar Investment**

5 YEAR WARRANTY

Gall's, Inc. warrants against defects in materials and workmanship on all lightbars, speakers and sirens we sell, for a period of five years from the date of purchase.

Gall's, Inc. will repair or replace, at its option... free of charge... items covered by our five year warranty found to be defective. To ensure your purchase is covered, please complete the "Warranty Registration Card" within 10 days and return it to us.

This warranty does not cover anything resulting from misuse, abuse, neglect, alteration, failure to observe maintenance procedures, and unauthorized repair or service.

To obtain warranty service, simply return the product, freight prepaid to:

**Gall's Inc
2470 Palumbo Drive
Lexington, Kentucky 40555**

To avoid delays, be sure to include a note about the problem, your return shipping address, a daytime telephone number, and proof of purchase.

Since our five year warranty is limited to selected items we sell, it is necessary to have either a warranty registration card on file or original proof of purchase in the form of a packing slip, cash receipt or credit card receipt to receive warranty repair.

MEMO

Gall's is so confident about the lights, sirens, and speakers by Federal Signal, Whelen, and Code 3, that we are the only company that offers a full 5 year warranty on these items. We do recommend that you visit your local dealers... but if there's no dealer in your area, or they don't have it in stock, call us toll-free... and we'll ship it to you within 72 hours.

We didn't get to be the nation's largest lightbar supplier by accident. We got there because time and time again we provided you with the finest service, lowest prices, and best lightbar selection anywhere. After twenty plus years of high volume sales, you'd think we would be satisfied. But we decided to do more.

A year ago, we introduced a new concept... something no one else in the industry has done. We pledged to you a five year warranty on all the sirens, speakers, and full-size lightbars we sell— a far better offer than the normal two year warranty of most companies. Why should we take this step? We know what a major investment a lightbar is for you. You need a lightbar that will go the distance... one that will give you long-lasting service. And that's just the type of lightbars we sell... quality built models that will do the job for you.

Your Lightbar is Customized for You... and Our Huge In-Stock Inventory Means Fast Delivery to You

When you order a lightbar from Gall's, one of our four technicians will install the options and lenses you require. The result? You get a lightbar that meets your unique job needs and you get it --NOW!

We stock the greatest selection of full-size lightbars in the country. Within 72 hours of your order— which you can place on our toll-free line— your lightbar will be fitted with your options and lens needs and shipped to you.

FEDERAL SIGNAL CORPORATION
Signal Division

All 3 Sizes In Stock for Immediate Delivery

This full featured light bar offers 360 degree warning power, with absolutely NO BLIND SPOTS! Innovative design concept has all auxiliary features pre-wired into a "pod" beneath the primary light system - so it's easy to add the optional equipment you want later. Twin diagonally positioned rotators on each side, with 4 over-sized parabolic reflectors and 50 watt halogen lamps give it extraordinary flash/power, with 380 flashes per minute. One of the most effective light bars on the market today, the Streethawk offers more optional features - like takedown lights, alley lights and directional strobes - and is built for easy service and dependability. It comes in your choice of 40", 47", or 52" size. All three sizes have the same features - the only difference is in the width of the speaker housing.

Standard speakers will fit both the 47" and 52" bars*. And when you change cars, a conversion kit is available to make your Streethawk fit whatever you drive. Your choice of red, blue, amber, green or clear domes, with colored filters available at no extra charge.

Choose from 3 sizes, all in stock:

- #SH40 Compact 40"L x 12 3/4"W x 7 5/8"H
- #SH47 Medium 47"L x 12 3/4"W x 7 5/8"H
- #SH52 Long 52"L x 12 3/4"W x 7 5/8"H

Get the Edge on moving traffic with Whelen's Edge 9000, an ultra slim low profile strobe lightbar. Each Edge strobe power supply provides 120 double flashes per minute, and gives you a full 360 degree warning light dispersion. Advanced design combines precision parabolic reflectors with a strobe tube that is permanently pre-focused to the mirrored surface - allowing an unprecedented amount of effective warning light to be produced in a narrow profile. That's why the Edge 9000, at only 3 3/4" high, can still be the industry's most powerful lightbar. Your choice of red, blue, amber, clear or green lens. Measures 48"L x 10"W x 3 3/4"H. Price includes hook-on or permanent mounts, 15 feet of cable, and lenses. For Gall's special on optional takedown and alley lights, see chart below.

THE EDGE 9000AK LIGHTBAR Combining Strobe and Halogen Brightness

Whelen introduces yet another Edge lightbar. This new Edge is packed with features: like hi/lo strobe intensity control, double strobe flashes, and strobe light flash rate control. This incredible light system flashes in the standard mode of 135 double flashes per minute... and... using the all new Rapid-Rate mode control... flashes at an amazing rate of 440 strobe light flashes per minute. But that's not all. Front facing flashing/steady burn take down lights have a flash rate of 300 flashes per minute, while front and rear facing halogen high speed flashers flash 200 times per minute. Price includes hook-on or permanent mounts. Measures 48"L x 10"W x 3 3/4"H. Available in red, blue, amber, clear and green.

New Improved JetSonic at a New Lower Price!

The JetSonic's new design uses individual motors on each of four rotators, giving you twice as many direct flashes per minute.

A combination of four 50 watt halogen lamps with parabolic reflectors, and a total of 8 polished aluminum mirror surfaces gives you 360 warning power and an incredible 720 flashes per minute in the primary mode. For additional warning power, select the optional front or rear flashers which provide 105 brilliant flashes per minute.

The JetSonic offers other benefits, too... improved fuel economy and performance, and greater adaptability with your choice of inserts. The new JetSonic also has a redesigned speaker housing which directs all the sound forward and down for superior performance levels from 100 watt speakers. Other top quality features of the JetSonic have remained the same... like the standard black sunscreen and dome inserts. And you can still upgrade your JetSonic lightbar at any time to meet your future needs because of it's pre-wired design. Check out the new JetSonic—with it's new high performance design and lower price, it just may be the light bar you're looking for. Size: 47 1/2"L x 11 3/16"W x 4 11/16"H at dome. Please specify your choice of lens color. Includes hook-on or permanent mounts, cables, and domes.

Sleek Aerodynamic Design... the New JetStream

JetStream's new streamlined design is similar to the ever-popular JetSonic... the main difference is that JetStream's slim line lightbar has no speaker housing. With the center space open, JetStream is able to offer the extra optional lighting power of the Traffic Clearing Light... power that will make the crucial difference when absolute warning light is needed. But that's not all. Other full-line lighting options are available, too... like flashing, alley, and take-down lights... all ready to easily install when you have the need.

Like the JetSonic, the JetStream's independent motor rotators provide twice as many direct flashes. A total of 8 polished aluminum surfaces combined with four 50 watt halogen lamps with parabolic reflectors gives you 360° warning power, with 720 flashes per minute in the primary mode. A preset operation provides 105 brilliant alternating flashes per minute in the secondary mode. So get the lighting power you need. Trade up to the new JetStream today. Please specify your choice of lens color. 47 1/4"L x 4 11/16"H x 11 3/16"D.

Includes hook-on or permanent mounts, cables and lenses.

 A black plastic dash light with two polished mirrors. The Southern VP logo is in the top center.

Multi-Flector

Fits most dash lights - Design creates a triple impulse by using two polished mirrors, yet eliminates flashback in driver's eyes while still allowing flashes to the rear. Base is made of black ABS plastic. Installation is easy with velcro fasteners that are included. 5 3/4" H x 4 1/2" D x 11 1/2" W.

#875 Multiflector
Suggested List \$25.00
Gall's Price \$17.99

DASH-MASTER™ Strobe

WHELEN

Special Features

- Self-contained power supply
- Impact resistant black nylon housing
- Shatterproof Lexan optic lens in five colors
- For interior dash or rear deck mounting
- Comes with coiled cord and cigar plug
- All American Made

Single-Strobe Dashmaster

The DashMaster strobe light can make a critical difference when used with a supplementary warning light on emergency vehicles. This effective dash light actually provides **60 double flashes** per minute. Yet, for all its' brilliance, it is a compact 4 1/2" W x 3 5/16" H x 3 1/2" D, and draws only 2 amps at 12 volts DC. Ideal for police, fire, and emergency use, it is designed to be mounted on the rear deck, vehicle dash or visor. Available in red, blue, amber, clear, or green lens.

#WDM Dashmaster Suggested List \$129.95
Gall's Price \$99.99
 #XWH0206 Optional magnet \$9.99

Double-Strobe Dashmaster II

Dashmaster II gives you double the warning power, with two strobe lenses that provide **120 alternating flashes** per minute. Better yet, because the lenses are positioned at angles to each other, you get a much wider intersection of warning light... up to a full 180 horizontal warning protection. Designed for use on the rear deck or dash, it measures 9 1/4" W x 3 3/8" H x 4" D, drawing only 3 amps. Comes with adjustable bail strap mount in your choice of colors: red, blue, amber, clear, and green lens.

#WDMII Dashmaster II Suggested List \$250.00
Gall's Price \$199.99

Outlet Boxes

One-hole outlet with switch comes with wiring and 25 amp blade fuse.

DASH-FLASHER Halogen

WHELEN

In Single or Double Lamp Models

Special Features

- Lightweight, low profile design
- High reliability electronic flasher
- Precision focused halogen bulb and reflector module
- Lexan optic lens in five safety colors
- Impact resistant nylon housing
- 60,000 beam candlepower per lamp module
- 100 flashes per minute, per lamp module

High Intensity Single Dashflasher

Designed to produce a warning light of 60,000 candlepower with a minimum of amperage, the Dashflasher is so economically priced and inexpensive to operate, it's perfect for paraprofessional or official use. Dashflasher combines a precision focused halogen bulb with a patented, highly reflective parabolic reflector. Comes completely assembled and equipped with a combination dash/visor mount, a 7-ft. coiled cord, and cigarette plug. Rugged black housing measures only 4 1/2" W x 3 5/16"H x 3 1/2"D. Red, blue, amber, green and clear.

#DFH-100 Single Lamp Dashflasher
List Price \$99.00
Gall's Price \$74.99

Double Warning Dual Dashflasher

For double the warning power, use the dual light Dash Flasher DFH-200. With each lamp module flashing 100 alternating flashes per minute, a total of 200 eye-catching flashes per minute are produced. Quality Lexan optic lens may be ordered in any combination of colors. Impact resistant black housing includes a heavy duty aluminum bracket, adjustable for three mounting heights to fit a variety of interior surfaces and mounting requirements. Includes 7-ft. coiled cord and cigarette plug. 9 1/4" W x 3 3/8". Red, blue, amber, green, and clear.

Emergency Traffic Mover

When you *have* to move traffic, the ETM system will beat all others. Rapid pulsating headlights at 3 times per second will get attention well before emergency vehicle sounds are heard, and allow motorists to move out of the way more quickly. During daylight operation, all lights modulate; at nighttime, low beams stay on for driving safety while high beams modulate, or you can override the ETM system by switching headlights to high beam position. Works on either 2 or 4 headlight vehicles.

**#ETM Emergency Traffic Mover
\$45.99**

ETM Installation Kit

Order this ETM installation kit if you require switch, wiring and connectors for installation on your vehicle.

#IK ETM Installation Kit \$14.99

Multi-Pulse

Get two stage emergency warning with Multi-Pulse. This multi-speed, multi-function solid state driven relay system is the only one that provides warning at both the front and the rear. During pursuit, headlights modulate at a patented 3 times/second, and grille and deck lights alternate at 3 times/second. When vehicle stops, head lights can be shut off while grille and deck lights continue to alternate at 1.8 times/second. Additionally, the system combines brake light with deck light operation under normal driving conditions. Makes a great addition to your emergency warning system.

#ETMPOO Multi-Pulse \$109.99

Multi-Pulse Installation Kit

Order this Multi-Pulse installation kit if you require switch, wiring and connectors for installation on your vehicle.

#ETMPOOIK Installation Kit \$14.99

Electro-Mechanical Flasher

NEW! Heavy-duty replacement wig-wag flasher replaces Tridon flashers. Powerful enough to operate 2 lights from each circuit leg, this flasher is completely encapsulated in epoxy resin for stability. 1 1/2" W x 1 1/2" D x 2 7/8" H.

#03-120 Electro-mechanical Flasher \$16.99

Traffic Movers

Headlight Flasher Kit

One of our most popular items, this heavy-duty headlight flasher really moves traffic! The complete, fully assembled kit includes double pole, double throw toggle switch, indicator light, in-line fuse, 12 feet of wire and mounting bracket. Can be used on both 2 and 4 headlight systems. Great for emergency vehicles or as additional warning lights. Switch on to wig-wag headlights or driving lights. Switch off to use lights in normal driving mode.

#03-771 WigWag Headlight Flasher

Suggested List \$39.99

Gall's Price \$19.99

Power Pulse

This solid state driven relay system alternates headlights at a patented 3 times per second to provide more effective warning to traffic approaching from the front of the car. Power Pulse features: extended bulb life, low voltage (1/4 amp) switching; highbeam override to deactivate flashers; and easy installation time. Hermetically sealed unit protects electronics from moisture and dust.

#ETPPO Power Pulse

\$44.99

Power Pulse Installation Kit

Power Pulse installation kit is available should switch, wiring and connectors be required.

#ETPPOIK Installation Kit \$14.99

Flashback

Avoid roadside collisions with Sound Off's "Flashback." This new system alternately flashes red brake lights against white back-up lights. The superior warning power and undercover design make it great for marked or unmarked vehicles. Coupled with the ETM (sold on opposite page) it makes a complete traffic alert lighting system for both the front and rear. 3" x 3".

MEGA BEAM

1 MILLION CANDLE POWER

For brightness that won't quit, you need the 1-million candlepower of Mega-Beam. Weighing less than 2 pounds, the 12 volt spotlight by Night Owl produces this incredible power with very little amperage, less in fact than a traditional 200,000 candlepower unit. Best of all, MegaBeam produces more light visible to the human eye than any other spotlight of this size. The beam's special design gives the same viewing quality whether the object is nearby or hundreds of yards away. MegaBeam includes a heat-tempered lens, 8-ft. coiled cord with lighter plug, a momentary switch, and comes with a one year warranty. 9 1/2" H x 5 1/2" W. Black.
